EDUCATION

ABES Engineering College, Ghaziabad

Sep 2024 – Jul 2028

B.Tech in Electrical and Computer Engineering (ELCE) (CGPA - 8.27)

Ghaziabad

SVM School Lucknow

Apr 2023 – Mar 2024

Intermediate (A-Grade)

Lucknow

EXPERIENCE

Software Engineer Intern

Jun 2026 – Present

Meraken

- Contribute to real-world software development projects involving backend development, REST APIs, databases, and engineering best practices.
- Develop a Factory Monitoring POC for real-time energy and equipment-condition monitoring using ESP32, MQTT, InfluxDB, Grafana, Node-RED, and Docker.
- Work with IoT systems, backend integration, APIs, databases, debugging, and software engineering practices.

PROJECTS

Sentiment Analysis | *HTML, CSS, JavaScript, TypeScript* | [LIVE](#)

Sep 2025

- Developed a web-based sentiment analysis system with **CSV file upload** support for bulk comment evaluation.
- The platform generates visual insights including pie charts, word clouds, and a concise summary of all analyzed comments.
- Automated bulk user-comment processing to improve feedback analysis efficiency.

Task Flow | *React.js, JavaScript, Tailwind CSS, Node.js, REST APIs, MongoDB* | [LIVE](#)

Jun 2026

- Developed a full-stack task management platform with secure authentication, task creation, status tracking, and workspace management.
- Built an interactive dashboard featuring task analytics, progress monitoring, filtering, and priority-based organization.
- Integrated a responsive UI with REST APIs to streamline task management and improve application usability.

AIFlow Enterprise OS | *React, Type Script, Convex, REST API, Notion* | [LIVE](#)

Jul 2026

- Built a multi-tenant enterprise workflow platform with role-based access and dedicated dashboards for employees, managers, and HR.
- Implemented company join codes, request workflows, role management, tenant isolation, and AI-assisted decision and audit workflows.
- Integrated Convex for real-time backend operations and Notion for human-readable audit trails and request history.

TECHNICAL SKILLS

Programming Languages: C, Python, Java, SQL, JavaScript, TypeScript

Web Technologies: HTML, CSS, React.js, Node.js, Express.js, Tailwind CSS, REST APIs

Databases & Backend: MongoDB, Convex, InfluxDB

IoT & Monitoring: ESP32, MQTT, Grafana, Node-RED

Developer Tools: Git, GitHub, VS Code, Docker, Vite, Vercel, Notion

AI/ML: Machine Learning, Gemini API, Prompt Engineering

ACHIEVEMENTS

- Secured **2nd Position** at the **Cognitive Chaos Hackathon**, organized by **HackBriven** in collaboration with the **Microsoft Azure Developer Community**, by building **AIFlow Enterprise OS**, a multi-tenant AI-powered enterprise workflow.
- Won the **Smart India Hackathon (SIH) – College Level** by designing and presenting an innovative technical solution in a competitive team environment.
- Achieved a **2 Star Rating** on **CodeChef** through competitive programming and algorithmic challenges.
- Achieved **5 Star Rating** in Python and Java on **HackerRank**.
